

**SUMMARY**

The Stellar V Nova is an IP20 batten for commercial and industrial applications. With first-to-market Five-Colour and Multi-Watt selectable technologies, it offers the flexibility and convenience of 5 colour temperatures and 2 wattages in 1 fitting. Installers can now cater to a broader range of needs with fewer variants, saving time and money. With the installer in mind, it incorporates clever design features to facilitate quick and easy installation like a large 6mm terminal block, quick-to-fit single piece LED light module and multiple cable entry points.
