

LUXAIR
LOW-GLARE AIR HANDLING PANEL

LUXAIR

LuxAir – the Low-Glare, Low UGR Air Handling Panel comes with a unique design structure, whilst also ensuring a streamline aesthetic design. The front air handling continuous slot is offset to the rear panel slot, therefore black baffles are no longer required.

With a smooth and even light output available in multiple sizes 600x300, 600x600, 1200x300, 1200x400 and 1200x600 and multi-watt to suit a wide range of needs. Fitted with a low glare micro prismatic diffuser and PMMA LGP for lifetime stable light output, this product ensures flicker free lighting output, and available with DALI.

- ✓ Special frame design for air handling
- ✓ Multi-Watt, up to 137Lm/W
- ✓ Low-glare micro prismatic structure UGR<19
- ✓ PMMA light guide
- ✓ 1.0m flex & plug
- ✓ DALI or 0-10V dimming options
- ✓ 5-year warranty
