

SUMMARY

The FocalSpot is a rechargeable LED headlamp ideal for professional installers and recreational activities. Engineered to deliver high lumen output, it features 3 modes for individual preference or application requirements; high, medium or flashing. The beam is adjustable from wide to narrow via the telescopic lens. The position of the lens can also be adjustable up to 90 degrees. Designed to be worn comfortably for long periods of time, the FocalSpot is lightweight and incorporates an elastic head strap with rubber cushioning pads.

DIMENSIONS

PRODUCT DATA

Order Code	453007
Wattage	10W
Lumen Output	800Lm
IP Rating	IP54
Light Source	COB Chips
Power Source	Rechargeable lithium batteries
Modes	High, medium or flashing
Driver	Integrated
Fitting Colour	Black
Dimmable	No
Construction	High quality Aluminium alloy and ABS plastic
Beam Angle	Adjustable. Narrow to wide
Net Weight (kg)	0.38
Warranty	3 years
